

**H**ow would you describe your lifestyle: Middle-class, traditional, old-fashioned, homespun, salt of the earth, or easy going? What words would those who know you well use to describe your lifestyle: contemplative, reflective, optimistic, skinflint, demanding, devoted, trustworthy, loyal...? How about those who know you casually like...oh, let's say your dentist or the people who help with your personal grooming; what words would they use for your lifestyle: cheap, generous, colorful, secure, or religious?

The Apostle Paul was deeply concerned for the lives of people who turned to Christ for salvation, but were being sidetracked by a lifestyle of legalism. His overall message: rather than a life regulated by the law, **live by faith**.
